Psych 3A03 (Audition) Writing Assignment #2 (5% of total grade)

DUE: 17 November 2008

Instructions

1. Use the McMaster Library website and e-Journal portal to find and retrieve ONE of the articles listed below.

2. Read the article and then write a short paper and answer the following questions.
   a. **Purpose.** Why did the authors conduct the study? What did the authors attempt to demonstrate in the article? (i.e. what specific hypothesis was tested)?
   b. **Methods.** What major research methods and techniques were employed by the authors to demonstrate the phenomenon under investigation?
   c. **Results.** What were the most important (i.e. key) results reported in the article?
   d. **Significance.** Why are the results important? What are the implications of the findings?
   e. **Future Directions.** What future experiments do these results immediately suggest?

3. Please type your name and MU student ID number at the top of your assignment.

4. Use complete sentences and paragraphs to write your answer. Do **NOT** use point form.

5. The maximum length of this assignment is 2 PAGES TYPED and DOUBLE SPACED, using a minimum of a 12-point font with a 1” page margin all around.

6. The assignment is due on 17 November 2008 at the beginning of class. You will be penalized one letter grade for each day that your assignment is late.
