Text: Neath, I. & Surprenant, A.M. (2003). *Human Memory: An introduction to research, data, and theory*. Wadsworth: Belmont, CA.

Website: www.psychology.mcmaster.ca/3vv3

Course Content: One course objective is to provide students with an overview of the research literature on human memory. A second course objective is to foster the development of research skills. These objectives will be addressed in part through lectures on selected topics, and in part through class and web-based discussions. In addition, we'll tackle a set of original research articles, with students required to contribute to web-based discussions, to write short position papers, and to lead oral discussions based on those articles.

Evaluation: A mid-term examination will be held on October 24th, and will contribute 20% toward the final grade. The final exam will be held during the December final examination period, and will contribute 35% toward the final grade. Students will also be required either to write two short (two page) position papers each worth 12.5% of the final grade, or to give an oral presentation worth 25% of the final grade. These position papers and oral presentations will be based on selected research articles that we discuss on Thursday mornings. Finally, 10% of the course grade will be assigned based on web discussions, and 10% of the course grade will be assigned based on class attendance and participation for the Thursday oral presentations.

Summary of Evaluation

Final exam	35%
Midterm exam	20%
Position Papers / Presentation	25%
Web Discussion	10%
Thursday participation	10%
Total	100%

Note 1: The penalty for position papers submitted after the due date is 10% per day that the paper is late. Submissions to the web discussion group after the due date will not be graded.

Note 2: The instructor and university reserve the right to modify elements of the course during the term. The university may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check their McMaster email and course websites weekly during the term and to note any changes.

Note 3: All excuses for missed exams must be submitted through the office of the Associate Dean of Social Science (or Science etc., depending on your program). Also, attention is drawn to the Statement on Academic Ethics and the Senate Resolutions on Academic Dishonesty as found in the Senate Policy Statements distributed at registration and available in the Senate Office. Any student who infringes one of these resolutions will be treated according to the published policy.
