With graduation around the corner have you put any thought into continuing your education with grad school? Enhance your knowledge and skills by building on your undergraduate degree in Psychology with a **Master of Information** degree from the University of Toronto’s iSchool! We offer several concentrations to choose from, including Knowledge Management & Information Management, Critical Information Policy Studies, and Culture & Technology among several others. Gain hands-on experience and link theory with practice through co-ops and practicums! For those interested in research and considering a future PhD, a thesis option is also available.

Examine how information, in all its forms, whether cultural, technological or archival, interacts with society, and how it helps shape, and is shaped by, technological and human concerns at the iSchool!

Our graduates are employed by a wide variety of public and private sector employers, including, government, law, health care, technology, financial services, and education to name a few. Our alumni work as: Information Management Consultants, Knowledge Management Specialists, Digital Advocacy Specialists, Research and Communications Coordinators, Policy Advisors, and Corporate Engagement Advisors, just to name a few.

Sound exciting? Then please stop by the UofT iSchool booth at the McMaster Continuing Education Fair on **Tuesday, October 20th from 10:30am – 3:00pm** in the Student Centre for more information.

Additionally, we will be hosting our first Info Day at the UofT iSchool on **Saturday, October 24** where you will learn about admission requirements, co-ops, practicums, and have the chance to speak with current students and faculty members. Please visit [www.ischool.utoronto.ca](http://www.ischool.utoronto.ca) for more information.

With thanks,
