

FEMALE PARTICIPANTS NEEDED!

We are looking for female volunteers to take part in a research study looking at the influence of an **emergency contraceptives (i.e., *Plan B*)** on artery function.

We are looking for female participants between the age of 18-45, free of cardiovascular or metabolic disease, who are currently naturally cycling (not taking contraceptives).

You would be asked to participate in one non-invasive testing visit involving consuming an emergency contraceptive pill (*Plan B*) and participating in non-invasive vascular assessments before and after.

The total time commitment is 3 hours, and you will receive \$20 compensation for your time.
