

## RESEARCH PARTICIPANTS NEEDED

**WHO?** We are looking for healthy right-handed participants to take part in a study investigating sensorimotor integration in the hand.

**WHAT?** We are looking to study how training on a finger maze task influences sensorimotor neural circuits. You would be asked to practice the maze for a short period of time and receive Transcranial Magnetic Stimulation to the motor regions of the brain.

**DETAILS?** Your participation would involve coming to the lab for **3 sessions**, each approximately **2 hours long**.

You will be compensated at a rate of **\$20/hour** for your time.

If interested, please contact:
